

The Pennsylvania Department of Health (PA DOH) will distribute the H1N1 Status Update Report weekly. Please forward this update to other H1N1 response and planning partners.

**Surveillance**

***Epidemiological Data:***

Current data shows that the virus is widespread throughout Pennsylvania even though influenza-like illness (ILI) activity has decreased over the past week throughout most areas of the commonwealth.

Among confirmed cases since September 1, 2009, the age and gender breakdown is as follows:

| Age Range Most Affected: | Percent of Total Cases: | Gender:              | Percent of Total Cases: |
|--------------------------|-------------------------|----------------------|-------------------------|
| 0 - 4                    | 8.6%                    | <i>Male</i>          | 51.4%                   |
| 5 - 9                    | 16.4%                   | <i>Female</i>        | 46.6%                   |
| 10 - 14                  | 21.2%                   | <i>Not Specified</i> | 2.0%                    |
| 15 - 19                  | 15.2%                   |                      | 100%                    |
| 20 - 29                  | 15.1%                   |                      |                         |
| 30 - 39                  | 7.9%                    |                      |                         |
| 40 - 49                  | 7.5%                    |                      |                         |
| 50 - 59                  | 5.6%                    |                      |                         |
| 60+                      | 2.5%                    |                      |                         |
|                          | 100%                    |                      |                         |

***Public Health H1N1 Vaccine Clinics:***

***December 1 – 3, 2009***

H1N1 vaccine will be available by appointment only for individuals within the Advisory Committee on Immunization Practices (ACIP) target groups at the 60 PA DOH state health centers on December 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> from 2:00 – 6:00 p.m. Appointments can be made on-line by visiting [www.H1N1inPA.com](http://www.H1N1inPA.com) or by calling 1-877-PA-HEALTH (1-877-724-3258). The state health center addresses are listed on the appointment website.

As more vaccine becomes available, the PA DOH will host additional public health vaccine clinics and offer the H1N1 vaccine to the general public.

### **Vaccine:**

The following chart shows vaccine flow to Pennsylvania through November 30th:

| <b>Vaccine For PA</b> | <b># of Doses Allocated</b> | <b># of Projected Doses to be Received</b> | <b>Difference</b>  |
|-----------------------|-----------------------------|--|--------------------|
| <b>Overall Total:</b> | <b>2,447,600</b>            | <b>3,522,912</b>                           | <b>(1,075,312)</b> |

The following chart is a breakdown of vaccine allocated to providers through November 30<sup>th</sup>:

| <b><u>Provider Category:</u></b>                      | <b><u>Doses Allocated:</u></b> |
|---|--------------------------------|
| School/University                                     | 607,600                        |
| Public Health   | 287,600*                       |
| Hospital  | 473,700                        |
| Pediatrician  | 479,133                        |
| Primary Care  | 464,367                        |
| Federally Qualified Health Center/Rural Health Center | 101,300                        |
| OB/GYN  | 22,500                         |
| Other   | 11,400                         |
| <b>TOTAL:</b>   | <b>2,447,600</b>               |

\* Used to distribute vaccine to those individuals with no other resources to receive vaccine and for public health clinics scheduled 11/20-22 and 12/1-3.
